LNT

Outdoor

Flexible Lighting System

Reshaping outdoor aesthetics

CEILING FRAME

Color Bridge & LNT
Endow the space with transparency and layers.

Color Bridge & LNT
With a simple touch, the world of light emerges

WALL SURFACE

Color Bridge
Light and wall trace the outline of the night.

LNT
Let the wall tell the story of form and shadow.

ON THE GROUND

Color Bridge

Extending from the ground, laying a trail of graceful light

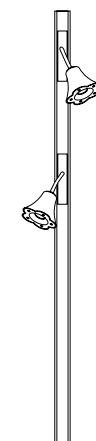

MULTIPLE LIGHTING STYLES

GARDEN FLOOR LAMP

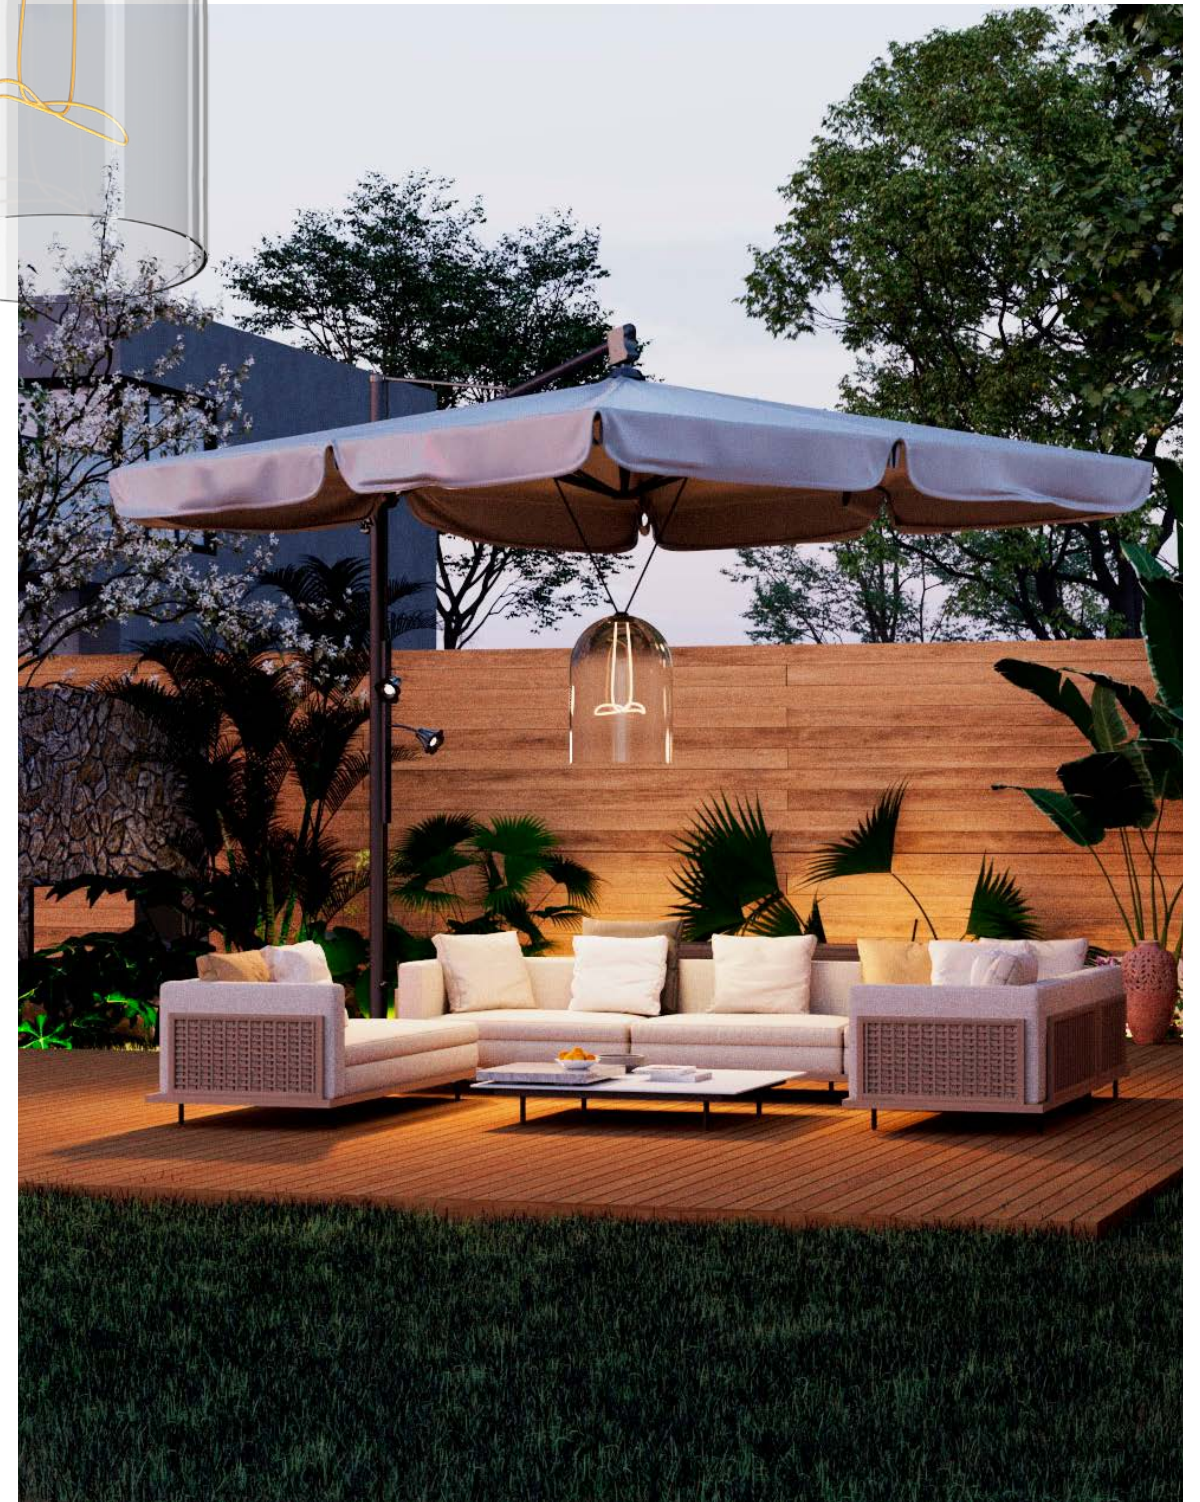

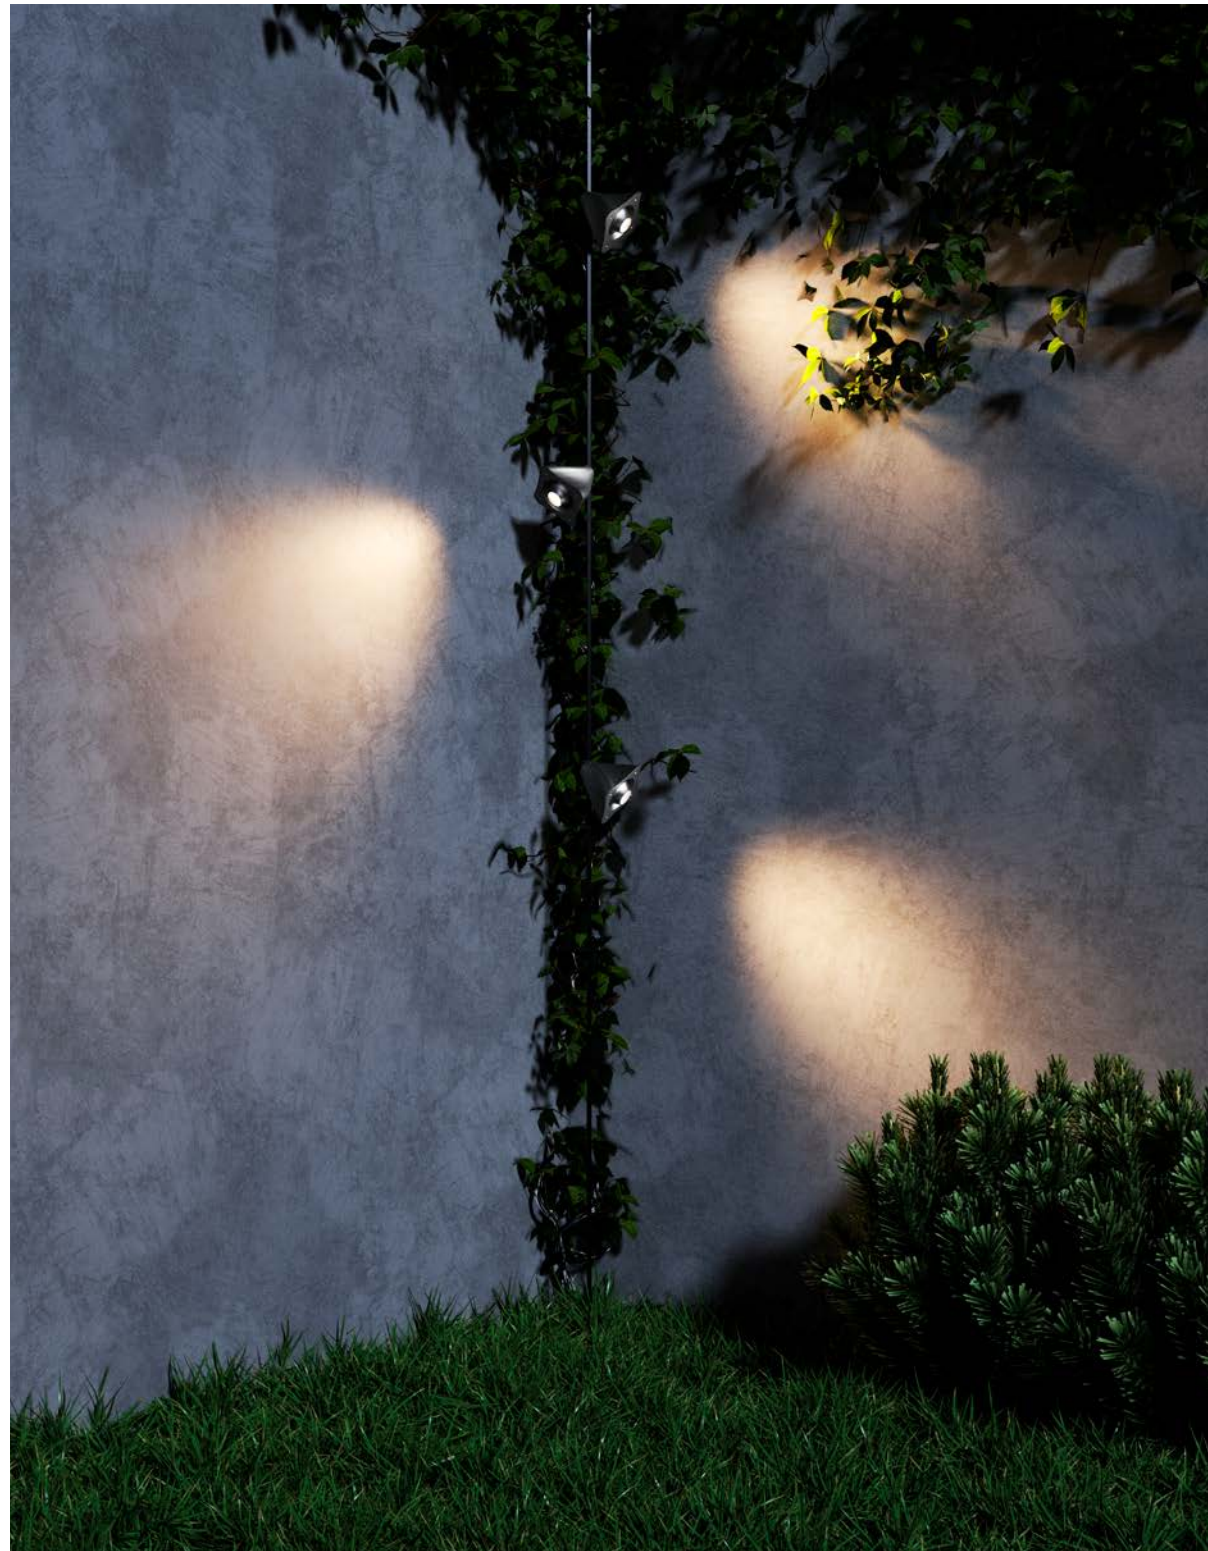

LNT

Let outdoor scenery carry its vitality into the night.

Color Bridge

Tucked among the vines in the corner, the rainbow bridge light weaves light and greenery together.

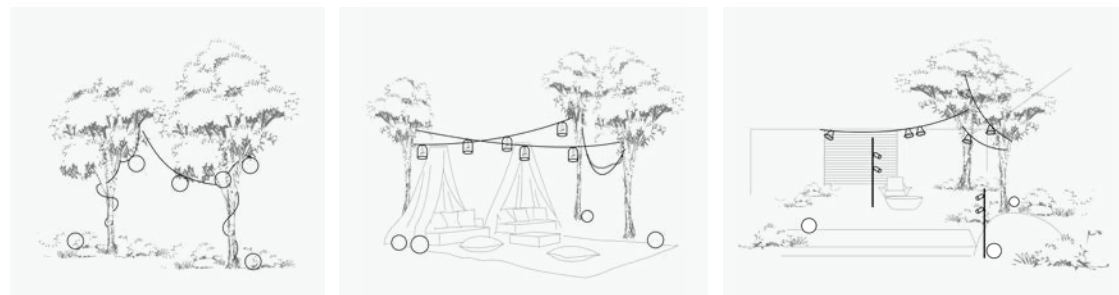

Sky Rail

Suspended above, creating warmth and a sense of ceremony over the dining table.

More arrangements

Suspending veins of light above the pergola and layering them across walls, the outdoor space flows with light and shadow.

Whether in the quiet of the interior or the clarity of the courtyard, the light extends the boundaries of space with perfect subtlety, creating a gentle connection between daily life and nature.

MODERN NATURAL AESTHETIC

Designed for natural outdoor environments,the light harmonizes with the surrounding landscape,creating a serene and layered atmospheric experience.

Glass bulb light

Evolution of light

MODULAR DESIGN

In the same scene, replacing different lighting modules at the same position can achieve different effects

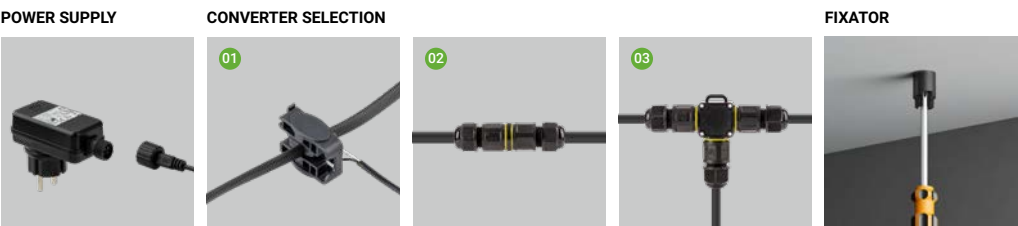

MODULAR FEATURES

24V SAFE VOLTAGE

The track operates on a 24V low-voltage power system with excellent electrical safety, allowing safe handling during operation and suitable for both indoor and outdoor applications.

Accessory

CONCEALMENT

The wiring can be hidden underground, featuring flexibility for easy burial in soil.

IP65

With an IP65 protection rating, it achieves comprehensive dust and water resistance, allowing light to flow freely in outdoor environments.

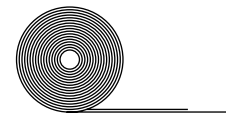

From Build to Presentation

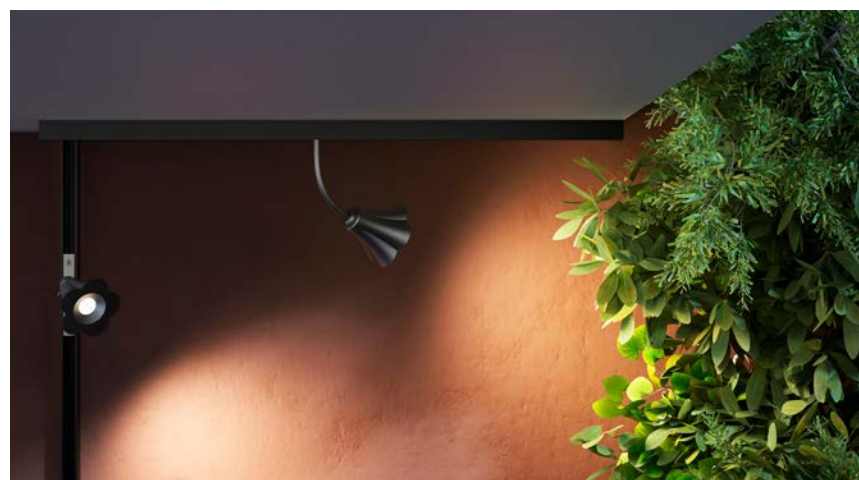

Color Bridge

Variety of shapes
Light module can be added / spliced at any time
Accommodate any type of building

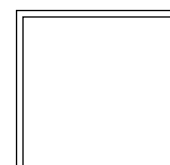

Sky Rail

Spherical axis of rotation
Helps you create ever-changing shapes
Reshape space

LNT

Adjustable, multi-lamp design
Environmental adaptability
energy saving and focus lighting
Suitable for all kinds of indoor lighting needs

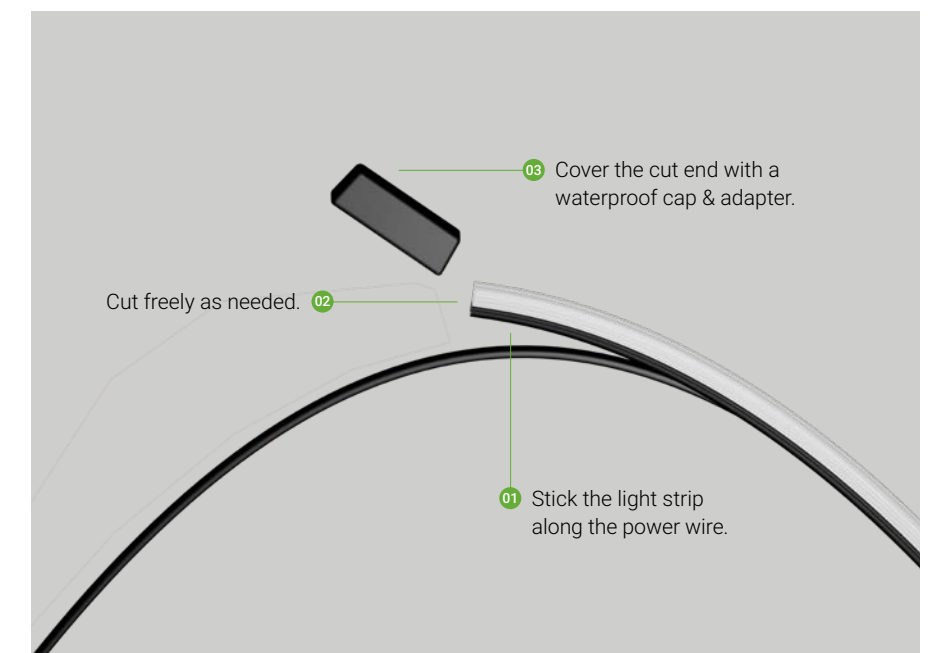

PRODUCT FEATURES

SOFT LIGHT STRIP

The flexible light strip supports free cutting, allowing precise length adjustment to match spatial layouts and design requirements.
